Our Curriculum

Our key question this half term is '**How are you feeling today?**'

We will be exploring our feelings, what makes us and others happy or sad and how we show our happy or sad feelings?

Next half term our topic is '**What lights up our world?**' We will be talking and learning about our families, things that light up, fireworks and different celebrations.

We will explore our topics through story, circle time, role play, art and craft both inside and outside during Forest School.

We will also be reading, retelling and performing some traditional tales.

Children have English, mathematics and phonics sessions each day. We also have adult and child led activities throughout the day where children have the opportunity to explore other areas of the curriculum and reinforce their learning through play.

Homework

Initially, the children will be bringing home a picture book to share which will be changed on their reading day. As we progress through the phonics scheme, we will be sending a book home for the children to practise reading their sounds, along with a picture book.

During this half term, your child will also bring home the phonic sounds we have been learning in class to practise. They will also be given a writing pencil, a laminated alphabet and number board and dry wipe pen as the term progresses. This is to help your child practise their letter and number formation with you at home.
