

## **CLIC**

We recognise the importance of securing the foundations of mental calculation and number sense and so provide children with daily CLIC sessions from Y1 – Y6. Through these short additional maths sessions, children are given daily opportunities to practise the number skills which are at the core of the curriculum. The session, taught outside of the maths lesson, gives children the opportunity to practise:

### **Counting**

children learn to count and to 'count on'

### **Learn Its**

children recall key number facts

### **It's Nothing New**

children apply number facts to any object, amount or unit of measure

### **Calculation**

the previous 3 phases are combined to provide a calculation structure.
