NB

Your child will be participating in the multiplication tables check (MTC) in June. The purpose of the check is to determine whether your child can fluently recall their times tables up to 12, which is essential for future success in mathematics. The MTC is an onscreen check consisting of **25** times table questions. Your child will be able to answer 3 practice questions before taking the actual check. They will then have **6 seconds** to answer each question. It is essential your child practise all of the times tables up to 12 x in preparation for this test.

Thank you for your cooperation.
